Drain Clearing Solutions

## BIOZYME MINI SACHETS

---

### BIOLOGICAL DRAIN CLEANERS

---

#### DIRECTIONS FOR USE

Biozyme Mini sachets are water soluble. There is no need to open the sachets, just drop them into the drain, trap or tank being treated.

**Drains** To maintain pleasant smelling, clean, unclogged and effective drains, add 1 sachet fortnightly. Introduce by leaving to stand in a bucket of warm water, (at 30 to 40°C). After 10 to 15 minutes, pour the solution into all waste outlets in the premises.

**Septic Tanks** For each m<sup>3</sup> of tank

1. Initial dosage: 3 Biozyme Mini sachets to be flushed down the toilet.  
Alternatively, they can be added directly into the tank.
2. Regular maintenance : 1 Biozyme Mini sachet every two weeks into the toilet bowl.

#### Storage and Handling

- Storage in a cool dry place.
- Avoid eye contact.
- Do not ingest.
- Wash hands thoroughly with soapy water after use.

**Note** When introducing through a toilet, always allow to stand for 5 to 7 minutes before flushing.
